

Reception Maths Home Learning

In school we are teaching maths using 'White Rose' Resources. You can find daily maths planning for reception children on their website. This is what we will be teaching the children in school. Each week the learning is based around a book, you may have this book at home, or you could watch the story on YouTube. Please find below steps how to access these lesson plans.

1. Google 'White Rose Maths'
2. You should find this website. Click the pink 'Home learning' tab at the top.

3. Choose 'Early Years'

4. Here you will find 5 lesson plans (one for each day) based around a book. This is updated every Friday. You could look back on previous weeks if you wish to complete these lessons with your child.

The screenshot displays the White Rose Maths website interface. At the top, a navigation bar includes links for Resources, Professional Development, Home Learning (highlighted in pink), Who We Are, and News. A search icon and a Premium Resources Centre link are also present. Below the navigation bar, a teal banner reads "Home Learning - Early Years". The main content area is titled "Summer Term - Week 6 (w/c 1st June)". Underneath, the section "Day 1 - The Snail and the Whale" is visible. A video player shows a thumbnail for "Starting with a Story" with the text "Learning through Play" and "A helping hand to where our activities link in our schemes and the EYF". To the right of the video player is a pink button labeled "Get the Activity" with a document icon. A sidebar on the right lists navigation options: Home Learning, Easter Fun, Summer Term, Home Learning - Early Years (highlighted), Home Learning - Year 1, Home Learning - Year 2, Home Learning - Year 3, Home Learning - Year 4, Home Learning - Year 5, and Home Learning - Year 6. A Windows watermark is visible in the bottom right corner of the page.
