

27th November 2019

Could you survive on Mars?

Hello from New Park Space Academy! As you are aware, Year 3/4 have been investigating space and our mission question: Could you survive on Mars?

We would like to invite you to the official exhibition of our Martian mission. Here the children will show off all their hard work and the knowledge that they have gained over the last term. There will be demonstrations and activities for you to participate in too!

This fantastic exhibition will be held on **Friday 13th December 2019** and we'll be opening doors from **2pm** onwards. All friends and family are invited to come along to share in this celebration of the children's work.

See you there!

Miss Watson and Miss Barker
